

# SEAN LONG

(408) 666 - 7326 ◇ sean.david.long@gmail.com ◇ seandlong.com

## EDUCATION

---

**University of California, Riverside, CA**

*Earned June 2023*

Ph.D. in Political Science

**Georgetown University, D.C.**

*Earned August 2015*

M.A. in American Government

**Reed College, OR**

*Earned June 2012*

B.A. in Philosophy

## WORK EXPERIENCE

---

**Oregon State University: *Political Science Instructor***

September 2024 - Present

- Full-time teaching position, involving up to six hours of presentation daily
- Involved teaching courses on research methods, instructing students on statistics and programming
- Required management of students and the planning of courses from development to execution

**George Washington University: *Postdoctoral Associate***

July 2023 - July 2024

- Analyzed social media data from a variety of online platforms, including Facebook and Telegram
- Created machine learning models to accurately analyze sentiment and topic of posts
- Developed research questions and executed long-term projects

**Collingwood Research: *Associate Researcher***

June 2021 - July 2023

- Worked on a variety of voting rights cases, including litigation support and demographic services for the creation of district maps
- Gained experience in merging shape files and using R to conduct spatial analysis
- Inferred demographic data by utilizing BISG algorithms and assessed racially polarized voting
- Performed large-scale geocoding operations on massive datasets, including voter files

**Various Universities: *Political Science Instructor***

Summer 2020 - June 2023

- While completing my Ph.D., I taught political science courses at the University of California, Riverside, Chapman University, the University of Redlands, and the University of Oregon
- This involved managing classrooms ranging from 20-150 students, as well as working with teaching assistants and other graduate student employees

**Independent Research Consultant**

September 2015 - June 2021

- Worked with UCLA Voting Rights Project to analyze voter files and assess racially polarized voting
- Assessed efficacy of voter turnout initiatives for a private client
- Performed a wide variety of research analyses on topics including carbon emissions and grid security for a series of clients

**UCR Graduate Quantitative Methods Center: *Consultant***

March 2020 - June 2020

- Fixed term position related to a grant award
- Provided tutoring in R and quantitative methods to graduate students
- Created and led two presentations on network analysis

**Center for Social Innovation: *Graduate Researcher***

April 2019 - June 2019

- Fixed term project to complete an overview of voting patterns in Southern California
- Analyzed election data and performed BISG racial imputation to assess racially polarized voting and turnout rates by race

**American Gas Association: *Research Intern***

January 2015 - September 2015

- Conducted research on technical topics to support policy making and lobbying efforts
- Wrote summaries of the research, drafted talking points, and prepared informational handouts

**Media Research Center: *Staff Writer***

September 2013 - August 2014

- Authored regular blogs, including both short news items and longer research and analysis pieces

**McCullough Research: *Research Associate***

June 2012 - June 2013

- Compiled extensive research reports and interfaced with media during their distribution
- Collected and analyzed a variety of data, including archival sources and FOIA requests

**TECHNICAL SKILLS**

---

|                         |                                                                     |
|-------------------------|---------------------------------------------------------------------|
| <b>Software</b>         | R, Microsoft Office Suite, LaTeX, Qualtrics, SQL                    |
| <b>Research Methods</b> | Quantitative methods, text data, machine learning, time-series data |
